

Ahmed Ali Butt

0311-7694349 abutt3009@gmail.com [GitHub](#) [Linkedin](#)

Summary

Full-Stack Developer (MERN/PHP) with 3 years experience delivering production-grade apps using Docker, JWT auth, and cloud platforms like Render. Known for optimizing app performance (up to 40%) and increasing traffic via SEO (+25%). Skilled in RBAC systems, CI/CD pipelines, and building scalable APIs. Passionate about clean code and modern UX.) Here: [View my portfolio](#).

Skills

Frontend: JavaScript, TypeScript, React, CSS, Bootstrap, Tailwind CSS, HTML5, SEO

Backend: Node.js, Express, RESTful APIs, PHP, C#, JWT, Gemini API

Databases: MongoDB, MySQL, PostgreSQL

DevOps/Tools: Docker, Git, Redux Toolkit, EJS, Render, Netlify, CI/CD, AWS (EC2, S3 concepts)

Methodologies: Agile, Scrum, OOP

Experience/Internship

Obitech - (Internship) | June 2022 - Aug 2022

- Resolved frontend bugs in JavaScript, enhancing the user experience and performance of the application.
- Collaborated with team members to implement new features and improve overall system efficiency.

Eversole - (Internship) | Oct 2022 - Feb 2023

- Developed CRUD API for a desktop application using .NET framework and C#.
- Collaborated with the development team to optimize application performance.

Bytelinx - (Software Developer) | March 2023 - Feb 2024

- Developed full-stack solutions using PHP and MERN stack, **improving site performance by 20%**.
- Implemented SEO strategies that increase **organic traffic by 25%**.
- Built an admin dashboard with role-based access control (RBAC).

Freelance - (Software Developer) | Feb 2024 - present

- Optimized React/Node performance by 40% through code-splitting and MongoDB query refinements, reduce hosting cost.
- Deployed 5+ apps on **cloud platforms** (Render/Netlify) with Docker containers.
- Built **secure JWT role-based auth systems** reducing breaches by 90%.

Projects

E-commerce Site: [\[Live-Demo\]](#) | [\[Github\]](#)

- MERN stack** store with **Stripe payment**, handling **over \$10K in test transactions** with secure webhook validations.
- Implemented JWT auth + role-based access (Admin/User), encrypted data in MongoDB Atlas (<250ms queries).
- Created admin dashboard with Recharts analytics, cutting reporting time by 65% for business decisions.
- Enhanced frontend performance by 35%** via **Redux Toolkit optimization**, and **MongoDB Atlas optimized queries**.

Cineverse – Movie Discovery Platform: [\[Live-Demo\]](#) | [\[Github\]](#)

- Integrated TMDB + Gemini APIs for AI-enhanced movie insights** using prompt engineering, alongside JWT authentication and real-time search functionality.
- Boosted data efficiency by **40%** using **React Query caching** and smart pagination, reducing server load significantly.
- Scored **80+ on Lighthouse** via lazy loading and responsive images, ensuring fast load times and full accessibility.

Cloudnotes – Secure Note-Taking App: [\[Live-Demo\]](#) | [\[Github\]](#)

- Developed a full-stack MERN application with JWT authentication and role-based access control.
- Implemented password **encryption using bcrypt with salt hashing**, ensuring 100% data security compliance.
- Stored user data in MongoDB Atlas with optimized queries, achieving <200ms response times.
- Designed responsive UI with Tailwind CSS, supporting cross-device accessibility.

Education

Superior University Lahore | 2018 - 2022 | Bachelor in Computer Science BS(CS)

Superior College Sialkot | 2016 - 2018 | Intermediate

Achievements/Certifications

Node.js & Docker | SimpliLearn | 2023

SEO Certification | WebExcels (Implemented strategies at Bytelinx, increasing traffic by 25%)

Languages

Urdu (Native) | English (Professional)
